

An aerial photograph of a winding river flowing through a vast, snow-covered landscape. The terrain is a mix of rolling hills and dense evergreen forests, all blanketed in a layer of white snow. The sun is low on the horizon, creating a warm, golden glow that illuminates the sky and the tops of the hills. The overall atmosphere is serene and quiet, typical of a winter day in a mountainous region.

Manh Choh

Winter Community Meetings

Who is Kinross Alaska?

- Fort Knox, Gil, and Manh Choh
 - Gil- a satellite deposit on Fort Knox property
 - Manh Choh- a joint venture with Contango & partnership with the Native Village of Tetlin near Tok
- Committed to Fairbanks for over 27 years
- Values based company
 - Putting People First
 - Outstanding Corporate Citizenship
 - Rigorous Financial Discipline
 - High Performance Culture
- Safety is Kinross' highest priority – safety of employees, contractors and the public
- Prioritizes local hire and investment
- 2030 GHG reduction goals and net zero by 2050

Kinross Alaska received the Alaska Miners Association Environmental Stewardship Award in 2022

Meet the Team

Terence Watungwa, VP/GM, AK

Shane Parrow, Ops Dir., MC

Meadow Bailey, EA Mgr., AK

- 2022: Received the Alaska Mining Association Environmental Stewardship Award
- 2023: Permits secured
 - Orientation trips and limited loaded trips
- 2024: Ramp up tucking operations
 - Finish Mill mods
- Mid-2024: Operations expected to begin; 4-5 year mine life

Best-in-class safety management plan

CR/External Relationships

- Over 100+ public meetings and gatherings since 2021 including truck/trailer show and tell.
- Monthly in-person meetings with DOT Acting Division of Facilities Services Director.
- Actively participating in the Transport Advisory Committee (TAC).

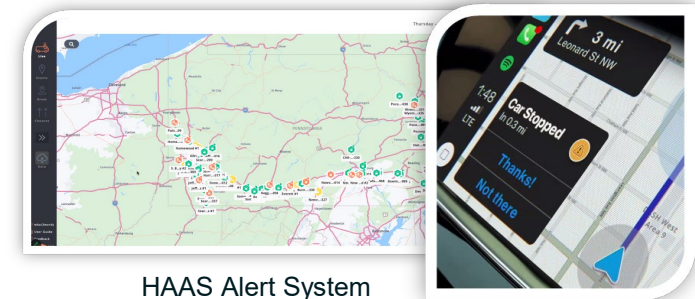

Equipment

- B-Train (vs A-Train): greater stability and tracking through corners, season specific tires.
- Disk brakes: >30% reduced stopping distance, increased reliability & maintenance efficiency.
- Visibility: heated LED lights, elevated lights, amber rotating beacon, fenders on all axles.
- Materials Management: mechanically operated tarping system, single dump cycle.
- Fatigue management: Samsara AI interactive system with voice coaching for drivers, shift design.
- Dispatch/ driver monitoring: electronic logging device (ELD), AI driver/front/rear facing cameras, driver safety performance rating system, fleet tracking, speed governed.
- Siyata push-to-talk cellular comms: Reliable 'end to end' route coverage, GPS location ping, VHF compatible, fleet or individual communications.

Drivers

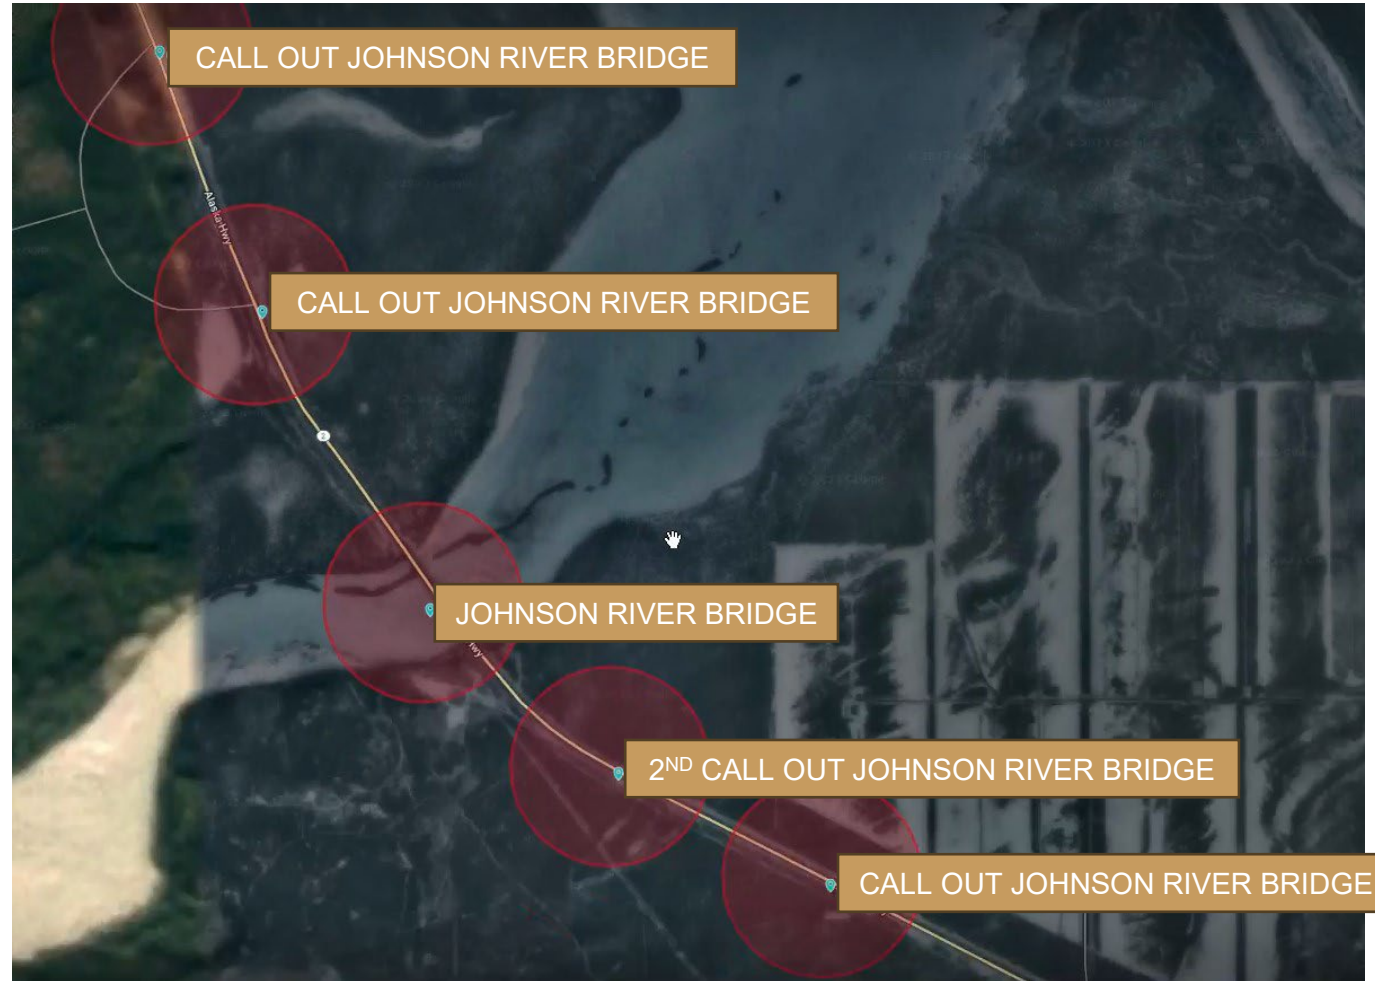

- Drivers with Northern climate experience.
- Classroom orientation: theoretical driver orientation & training.
- Route familiarization: drive routes in light vehicles, empty transport with single trailer, empty transport with double trailers.
- Loaded operation: Scale and load validation, reduced load transport, full load transport.
- Driver safety rating system in Samsara AI linked to driver safety incentive program.
- Driver pre-shift fit for duty checks, wellness programs.

HAAS Alert System

Samsara

- Proven transportation technology
- AI improves safety, response, visibility, and efficiency
- Geofencing, dedicated call outs, alerts and notification to dispatch
 - Johnson River, Robertson, and Gerstle bridges
 - School zones, bus stops, and area of public activity
- Factors weather along the route in
- Committed to not putting more than one truck on the bridge and stopping operations when conditions are poor

Project Operations

MAJOR ITEMS COMPLETED TO DATE

Mine Operations

- First mining in South Pit
- Completed Ore Loadout Stockpile management plan

Geology: Geology database, software, hardware in place; OC workflow set up and ready for production

Mine Planning: Pit redesign process complete, completed first test run of quarterly forecast process. First blast with electronic dets. Short range planning cycle process (daily/weekly/monthly plan).

General: Onboarded geology manager. XRF purchase authorized. BV sample prep contract complete. RC drilling contract awarded. Onboarded first surveyor. Setup GPS base station.

- 22 sets of trailers at the BGT yard along with 52 trucks received in Alaska
- 64 hired, 122 pieces of equipment received
- Transported first ore in December
- Finalized BGT Emergency Response Plan
- Signed off hand over of MC access road from Projects to Operations

Construction Look Back

Environmental Update

Compliance with Permits is Focus

1. Build Obligations Register in Monitor Pro
 - a. 22 Permits
 - b. 4,385 Annual Obligations
2. Training
 - a. Initial MSHA and Site Introduction
 - b. Permit Specific
 - c. Annual refresher
 - d. As-needed
3. Reporting as required

Workforce Development

Mining Career Pathway

A new mining career pathway started with the Alaska Gateway School District in January.

Week 1 – Introduction to Mining in Alaska

Week 2 – Exploration (Geology)

Week 3 – Engineering and Feasibility

Week 4 – Environmental and Permitting

Week 5 – Careers in the Mining Industry

Week 6 – Community Relations and Mining Operations/Milling/Reclamation

Week 7 – Mining and Training Petroleum Services (MAPTS)

Week 8 – Mine Tours (Manh Choh and Fort Knox)

Week 9 – Alaska EXCEL (employability skills)

Week 10 – MAPTS 2 week certification (18 or older)

Summer Internships

**START YOUR
CAREER TODAY.**

IMMEDIATE POSITIONS AVAILABLE – HIRING ALL SKILL LEVELS

COME MEET OUR TEAM!

MANH CHOH MINE - TOK, AK

**February 29, 2024
2:00 pm – 6:00 pm**
